

SECTION: PUBLIC WORKS

SUBJECT: ROAD MAINTENANCE

Original Resolution No.: 97-03-32
Revision Resolution No.: 00-06-05

Road Maintenance Policy

It is the policy of the County of Warner No. 5 to maintain roadways in order to keep them as safe as possible for the driving public.

Guidelines

1. Roads are to be maintained on a regular work week basis throughout the frost-free months. Increased maintenance may be given to high traffic roads if required.
2. Roads are to be graveled on an "as needed" basis at the discretion of the Gravel Foreman and the Superintendent of Public Works.
3. Gravel road snow plowing will be done on an "as required" basis or when drifting causes further problems.
4. Paved or oiled roads are to be plowed on a priority basis starting as soon as possible after a storm. Priorities are decided by the Superintendent of Public Works.
5. Paved or oiled roads are to be sanded as required, on a priority basis, with a sand/salt mixture.
6. Gravel road sanding will be conducted only at the discretion of the Superintendent of Public Works, based on the severity of the road conditions.
7. County roads receive roadside grass cutting(s) as required.
8. Warning signs must be placed in advance of any work being done to County oiled roads or dust control locations.
